

When Sea Becomes Sky

By Gillian McDunn

When Sea Becomes Sky by Gillian McDunn takes place in the present day in the summertime at this one house near a marshy area with a hidden statue under shallow water. This setting creates a calm peaceful environment.

The main character in 'when sea becomes sky' is Bex who is curious friendly and a little adventurous and the secondary character is davey who is patient book worm and kind the main character is dynamic because at the begin she wants to save the marsh but she learns nothing stays the same

The problem in "when sea becomes sky" that the main character Bex is attached to the marsh and then she learned a bridge was going to be built over it and she found a statue so she tries to find the artist of the statue so she will stop the construction of the bridge then she finds the artist and she learns that nothing lasts forever.

One of the themes in 'when Sea Becomes Sky' is curious/adventures when they find a statue they try to find more about it one of the other themes is problem solving when they realize there is a bridge being built where the statue is they did research to find out who made the statue so it will not get destroyed.

What I liked about the book was The book "when sea becomes sky" was the excitement of them finding the statue in the marsh. trying to find who made it and trying to save the statue from being destroyed by a bridge being built
